

MESSAGE FROM THE TRAINER

Carli Goins

All my life I have been drawn to animals and remember starting training with my family dog, Mac, on a homemade obstacle course in my backyard when I was 11 years old.

I have been a dog trainer by profession for a little over two years now. I started my career as a Certified Positive Dog Trainer, and I still use many of those methods. I later became an AKC Canine Good Citizen Evaluator through the same company.

I decided at that company that I could do more with my gifts, as I was not allowed to train fear reactive dogs. And having a fear reactive dog myself, I knew I would be able to help people manage their own reactive fur babies, and give them a better quality of life.

I left that company, and joined a profession that I knew I would get experience with fearful dogs in. What other than a Veterinary Technician sees more fearful dogs? I am now lucky enough to join my two favorite things together, and bring you training, at a clinic.

I have two dogs myself and can say, training never ends! Let me teach you how to be a trainer of your own dog, and prepare you for what life has to offer you and your best friend.

Ask a technician or receptionist for a dog training message to leave for Carli!

The trainer may require an evaluation or private lesson before the purchase of any group lessons and has the right to decline services.

Classes must be paid in full before a client can attend classes.

PUPPY TRAINING

Puppy training is offered in a group setting, giving your puppy the perfect opportunity for safe socialization, mentally and physically! Over the course of 5 weeks, we aim to set up the best foundation we can for your relationship with your new companion by learning how to set boundaries, preventing unwanted behaviors, and encouraging learning and focus.

Puppy Level 1:

Potty Training
Supervised Play (What is good play?)
The Name Game
Sit, Down, Stand
Body Handling

Puppy Level 2:

Kennel Training
Preventing Reactivity
Loose Leash Walking, Leave it, Heel
Sit at side
Come When Called

Puppy Level 2 can be followed by Adult Level 2 if you feel that your dog needs more practice (and most do!) in those areas. You can also ask your trainer if there are any upcoming classes, like the Trick Class, that you may be interested in. You can also decide that a more personal approach is what you want going forward, which is where a package of private lessons is suggested, used monthly as a sort of check up, as your puppy moves into adulthood.

Single (5 Weeks)	2 Pack (10 Weeks)
\$259	\$419

ADULT DOG TRAINING

Group classes are offered separately to puppies and adults, and are best for dogs who are not reactive to new dogs or people. In these classes your trainer will help you understand the basics of teaching your companion new things. In a 5 week program you and your dog will tackle major issues like basic obedience, manors, how to walk politely on a leash, and how to keep your dog's attention on you.

Adult Level 1:

Sit
Down
Stand
Come When Called

Body Handling
Manners

Adult Level 2:

Stay
Leave it
Heel
Sit at side
Wait

This class incorporates everything learned in Level 1, and must be taken second, unless stated differently in your evaluation

Level two can be followed by a trick class, where you can learn anything you and your dog are physically capable of. Things like Sit Pretty, Peek-a-Boo, Spin, or a specific fetching of an item, can be your new party trick together.

PRIVATE LESSONS

Private lessons are a great way to prepare your dog for challenging situations. In these one-on-one lessons your trainer and you will come up with a plan of action for your dogs training early on, and can tackle big issues. They can also be used to complete the Adult Courses, if your dog is currently reactive. Private lessons can be spaced out bi-weekly, weekly, bi-monthly, and monthly.

Examples of Lessons possible:

Separation Anxiety
Body Handling
Greeting a Friendly Stranger
Preventing Jumping
Potty Training
Loose Leash Walking
Prong Collars
Littermate Syndrome
Reactivity

Private Lessons		
Single	4 Pack	6 Pack
